

ICP Savannah SR KIT Contents and Pricing

ICP SAVANNAH SR KIT CONTENTS:

The Savannah SR kit is a comprehensive kit containing parts that are 3D CAD designed and produced by series production on CNC and laser-cutting machines to achieve a superior quality. This also allows a perfect interchangeability of replacement parts if required.

All aluminium parts and skins are CNC cut to size, bent, or moulded where needed; with holes drilled to final size and ready to be riveted using the included blind rivets. Just a little deburring of the holes may be necessary. Parts requiring solid rivets are supplied already completed and ready for assembly (pre-built wing spars etc).

The pneumatic rivet gun is included in the kit, together with a selection of cleco fasteners and cleco pliers.

This kit contains a comprehensive Build Manual and cross-referenced illustrated parts catalogue for easy identification of the clearly labelled parts during the build.

The kit contains all parts and materials necessary to build the fuselage, the wings and flaperons, the horizontal and vertical tail with elevator and elevator trim tab, landing gear wheels and brakes and firewall forward items.

The streamlined wing struts and cabin tubing are supplied predrilled for exact alignment.

Tricycle landing gear is standard.

6" wheels, tires, inner tubes with hydraulic differential brakes.

Manual flap controls (with an option for electric flaps), all control systems, all guides, and mounting brackets. All cables are prefabricated at the factory to appropriate length.

Electric trim with Ray Allen stick grips with trim on stick

Double throttle system with all cables and fittings.

Firewall-forward parts are included: Rotax 912 ring type engine mount with silent-block attachments, engine cowlings, water radiator, oil cooler, hoses, armoured oil tubes and clamps and fasteners. Cabin heating system

All AN hardware required for the build.

Two wing tanks containing 36 litres (9 ½ US Gallons) each and a collector tank containing 6 litres (1.5 US Gal) with reserve indicator, fuel drain valve, fuel shutoff valve and all tubing down to the firewall. The kit includes the electric pump, fuel filters, fuel distributor with connectors for fuel pressure gauge and fuel return to the tanks, fuel shutoff valve, fuel hoses, fittings, and clamps.

Cloth seats are standard in the kit.

Four-Point seat belts.

Jigs for fuselage and aligning flaperons.

CNC cut Instrument panel. (option for modification design at cost)

Flight and engine instruments included:

3 1/8" air speed indicator

3 1/8" three-pointers altimeter

3 1/8" vertical speed indicator

3 1/8" tachometer for Rotax 912 with hourmeter

Slip indicator.

Compass

Voltmeter

Oil temperature gauge

Oil pressure gauge

OAT and Airbox temperature gauge and sensors

Fuel pressure gauge

Complete prefabricated electrical wiring harness with:

Battery, master switch, two circuit breakers, switches, battery charge and fuel reserve warning lights. landing light, cabin light, and electric trim for elevator

Packing and Crating of Kit included.

Not included in kit:

Rotax 912 ULS engine with oil tank, regulator rectifier, exhaust system, airbox, propeller and spinner. Radio and Transponder, priming and painting, upholstery.

Delivery from ICP factory in Italy to UK extra.

Kit Options when ordered with kit: (All prices + UK VAT)

Airbox with temperature gauge	£535	Radio Antenna	£140
CNC cut Upholstery/Carpet kit	£305	Parking Brake	£90
Termignoni Exhaust	£960	Co-pilot side Dual Brakes	£380
Long range fuel tanks	£740	Tundra tires	£310
18 Litre collector tank (6 Litre standard)	£330	Dual Stick option with electric Flaps	£1150
Cabin carpet/ upholstery kit	£305	Electric Flap option for centre stick	£455
Extended baggage option	Included	Wheel Spats for 6" Wheels inc. fittings	£790
Extended baggage carpet kit	£70		

Prices valid November 2025 and may change without notice.

(All prices are Plus VAT and any UK Customs Duty that may be applicable)

Kit Cost:
£28,350 + VAT

ICP Savannah *SR* Ready-to-Fly Pricing

Ready to fly: £64,750 + VAT

Specifications

ENGINE – Rotax 912 ULS 100 hp with backup electric fuel pump. Airbox and Termignoni exhaust.

PROPELLER – E-Prop 3 Blade composite ground adjustable with spinner.

STANDARD INSTRUMENT PANEL – Airspeed indicator, Kanardia Vertical speed indicator, Kanardia Altimeter, magnetic compass, skid and slip indicator, tachometer, fuel pressure, oil pressure, oil temperature, hour meter, voltmeter, external and airbox temperature, 2 x water temperature for left and right cylinder heads, 2 x throttle control, choke, and carb heat.

CONTROL COLUMN – Centre Y stick with Ray Allen G101 stick grips with elevator trim on pilots stick grip included.

RUDDER PEDALS – On both sides with differential toe brakes on pilot side only. Option for brakes on passenger side

FLAP CONTROL – Electric flaps with position indicator included.

ELEVATOR TRIM – Trim control on stick grip with trim position indicator fitted.

INTERIOR – Charcoal upholstered with black floor carpets and black upholstered high-density foam seats.

EXTERIOR PRIME AND PAINT – Spray painted with exterior primer, painted with RAL Colours of a standard design.

SEAT BELTS – Lap and shoulder harness both seats.

CABIN HEAT – Included.

WHEELS - 6" standard wheels and tires, hydraulic brakes

FUEL TANKS – 36 Litre tank in each wing with 6 Litre Collector tank a behind the seat for total of 78 Litres.

LIGHTS – LED landing light on left wing and interior cabin light.

PAINT – Standard colour schemes with vinyl registration markings and Savannah-SR on wing tips.

Ready to Fly Aircraft Options: (All prices + UK VAT)

Airbox with temperature gauge	Included	Parking Brake	£125
Termignoni Exhaust	Included	Dual Brakes	£395
Long range fuel tanks (extra 72 litres)	£810	Tundra tires and fitting kit	£300
18 Litre collector tank (replaces 6 litre tank)	£355	Non-Standard Paint scheme	£POA
Ray Allen Trim/PTT on Stick Grips	Included	Dual Stick option with electric Flaps	£1300
Cabin carpet kit	Included	Electric Flaps for centre stick	Included
Extended baggage option	Included	Wheel Spats (paint matched) for 6" Wheels inc. fittings	£950
Extended baggage carpet kit	Included	Radio Funke ATR833SII fitted with loom and antenna	£1675
Whelen Nav and strobe lights fitted	£744	Transponder Funke TRT800H Mode S fitted	£2100

(All prices are Plus VAT and any UK Customs Duty that may be applicable)

- Prices valid November 2025 and may change without notice.
- Price includes test flying at the factory.
- Cost of packing on truck and shipping from ICP Italy if required not included.
- Aircraft permit and Registration costs not included.
